Indiana University seeks to appoint an Assistant Professor of Instructional Systems Technology (IST) beginning with the fall semester of the 2013 – 2014 academic year. This is a search for a full-time tenure-track position. The IST Department seeks applicants with a broad knowledge of the field of instructional technology, including familiarity with emergent theories and areas of study. The successful applicant will be expected to teach, conduct and publish research, and supervise graduate students.

Qualifications

The required qualifications are 1) an earned doctorate in Instructional Technology, Instructional Design, or a related field; 2) a research agenda focusing on instructional systems design, instructional theory and models, instructional strategies, and/or advanced development processes; and 3) evidence of teaching and scholarly activity, such as publication in professional journals and presentations at national conferences.

Highly desirable qualifications include 1) demonstrated potential for successfully acquiring external support through grants and/or contracts; and 2) a record of collaborative work in research, development, and/or teaching.

Responsibilities for this position include:

- Develop and maintain a strong research agenda as evidenced by grant support and refereed publications;
- Teach undergraduate and graduate courses in instructional technology;
- Advise Masters and Doctoral students;
- Collaborate and establish partnerships with professionals in educational and non-educational settings;
- Contribute service at levels commensurate with peers.

To apply for this position, upload a letter of interest, vita, contact information for three professional letters of reference, a transcript of graduate work, and a sample of your scholarly writing to https://indiana.peopleadmin.com/

Review of applications will begin on October 15, 2012 and continue until the position is filled.
