The Children’s Mental Health and Education Project
at the Center for Research on Learning and Technology
Indiana University
Research Associate/Research Scientist

The Children’s Mental Health Project at the Center for Research on Learning and Technology (CRLT) is seeking a Visiting Research Associate/Research Scientist to specialize in mixed methods analyses in the areas of children’s mental health and education. The position will work across a number of funded projects, managing, cleaning, and analyzing databases, conducting quantitative and qualitative analyses, and assisting with writing research reports on findings. The position will also help in the developmental of additional funding proposals.

CRLT is funded through various grants and contracts awarded by local, state, and federal entities from public and private sectors. More information about the Center is available at www.crlt.indiana.edu.

This is a one-year position with the potential of renewal for a second year contingent upon continued funding and satisfactory job performance. Primary responsibilities include (a) database management, data analyses, (b) using a variety of quantitative and qualitative methods, including statistical methods such as HLM, logistic regression, and other multivariate methods, to conduct and report statistical analyses; (c) consulting with principal investigators and other staff in the selection of appropriate methodology; (d) supervising graduate students in learning to choose appropriate methods and conduct analyses of project data; (e) participating in team-based planning of research and evaluation activities; and (f) collaborating on writing grant proposals and research reports, developing presentations on project outcomes and recommendations for a variety of national and state audiences including educators, researchers, policymakers, and funders.

The successful candidate will have an earned Master’s Degree or Ph.D. in the field of education, psychology, public health, research inquiry, or a closely affiliated field. Flexibility, strong organizational skills, experience in social science research, and the ability to work with others as a member of a research team are all essential.

This position is full-time including full benefits. Salary is competitive and commensurate with experience. To apply send the following materials: (1) a letter describing qualifications and research interests, (2) a curriculum vitae, (3) two letters of reference, and (4) a sample of a publication or scholarly manuscript in progress. Send all application materials to: Joy Willet, Center Manager, The Children’s Mental Health Project at the Center for Research on Learning and Technology; 1900 East Tenth Street | Bloomington, Indiana | 47406-7512 | www.crlt.indiana.edu

Review of applications will begin September 12, 2013, and will continue until the position is filled. Further inquiries may be made to Dr. Jeffrey Anderson, Project Director, at jander2@indiana.edu or to the Center Manager, Ms. Joy Willet; 812-856-2314; joywille@indiana.edu
