Indiana University announces a search for an Assistant Professor of Instructional Systems Technology (IST) beginning with the fall semester of the 2014 – 2015 academic year. This search is for a full-time tenure-track position. The IST Department seeks applicants with a broad knowledge of the field of instructional technology, including familiarity with emergent theories and areas of study. Applicants with primary research interests in computing and computer science education at the pre-collegiate level are particularly encouraged to apply. The successful applicant will be expected to teach, conduct and publish research, seek opportunities for internal and external grant funding, and supervise graduate students.

Qualifications

The required qualifications are 1) an earned doctorate in Instructional Systems Technology, Computer Science Education, or a closely related field; and 2) evidence of teaching and scholarly activity, such as grants or publication in professional journals and presentations at international and national conferences.

Highly desirable qualifications include 1) a record of successfully acquiring external support through grants and/or contracts, 2) experience with computer education in pre-service and in-service teacher education contexts, and 3) a research agenda focusing on computer science education, computing education, and/or multimedia design.

Responsibilities for this position include:

- Developing and maintaining a strong research agenda as evidenced by grant support and refereed publications
- Teaching undergraduate and graduate courses in instructional technology and the computer education licensure program
- Advising Masters and Doctoral students
- Participating in program/course development and refinement

To apply for this position, upload a letter of interest, vita, a transcript of graduate work, and a sample of your scholarly writing and contact information of three references to http://indiana.peopleadmin.com/postings/427 References will be contacted.

Inquiries about this position may contact Anne T. Ottenbreit-Leftwich, Chair, Instructional Systems Technology Search Committee, School of Education, Indiana University, 201 N. Rose Ave, #2220, Bloomington, IN 47405 aleftwic@indiana.edu 812-856-8486. For more information about the Department of Instructional Systems Technology, please visit our website at: http://education.indiana.edu/~ist.

Review of applications will begin on October 21, 2013 and continue until the position is filled.
The faculty of Indiana University is committed to achieving excellence through cultural diversity. The university actively encourages applications and nominations of women, persons of color, applicants with disabilities, and members of other under-represented groups.
