Special Education for Indiana’s Schools Today (SPEDFIST) is looking for teachers dedicated to meeting the needs of students with special needs.

Indiana University Bloomington has redesigned and refocused our preparation program for already licensed teachers who wish to become special educators. We offer this piloted program online and through distance education to accommodate the needs of working professionals in the field.

Special Education for Indiana Schools Today prepares candidates who are highly qualified in certain content areas. The program incorporates an ongoing field-based practicum so that students can practice skills in schools. Weekly seminar activities focus on building a community of learners and provide an opportunity for learning from fellow teachers.
