V. New Course/Course Changes

The following new course or course change proposals have been reviewed and approved by the Graduate Studies Committee, the Committee on Teacher Education or the Undergraduate Studies Committee. These course proposals will be forwarded to the next level of approval unless a remonstrance is received within 30 days.

New Courses

None

Course Change

EDUC-G 647

ADVANCED INTERNSHIP IN COUNSELING

Var 1-3 Cr

Proposed Change: Variable title approval; repeatable for a career total of 12 credit hours (an increase from 3); and career completions increase from twice to four times.

Description: Supervised practice in counseling in various educational or school settings. This field-based experience may be a paid experience for Ed.S. students in counseling. Course partially satisfies counselor licensure requirements.

Justification: We will be using this course for all of our counseling programs. We are requesting a change to variable title so that, if needed, we can specify which sections would be school counseling versus mental health counseling, etc. We are also updating the course components to accurately reflect the current delivery of this course.

EDUC-P 674 ADVANCED TOPICAL SEMINAR IN LEARNING SCIENCES Var 1-3 Cr

Proposed Change: Variable title approval; repeatable for a career total of 30 credit hours (an increase from 6); and career completions increase from twice to ten times.

Description: Topical seminar for doctoral students in Learning Sciences. Possible topics include higher education, pedagogy, embodied cognition, gaming/simulation, and problem solving.

Justification: This is a special topics course, and we not only offer many special topics courses, but also use this designation to experiment with new course ideas before requesting individual numbers for them. Therefore, while each session is completely different, many students may take this course more than twice for their electronic program of study and we want to be able to support that.
