Title: Counseling Psychology PhD Program Change

GSC presenter: Lynn Gilman

This proposal is for a...

- program change
- new program
- policy change
- new policy

Two changes:

1. Replace G524 with G624
2. Allow repeatable enrollment in G795 for a total of 3 credits hours

Include responses to each question, as relevant:

1. What are you proposing and why? (If proposing a change, then the description and rationale should be relevant to the change(s) only.)

For incoming doctoral students without a master’s degree in a counseling related field the initial practicum course requirement will change from 3 credits of G524 to 3 credits of G624. G524 has been replaced by G624 in an approved program change in the MSed Mental Health Counseling Program. Thus, G524 is no longer available for enrollment.

Allow for repeatable enrollment for a total of 3 credits of G795 to be divided across more than one semester. The course is currently approved for variable credit but was not approved for repeated enrollment. This change facilitates enrollment flexibility for students regarding the total credit hour load they accumulate within a single semester.

2. How will this impact enrollment?

There will be no change in enrollment or credit hour requirements associated with the G524 to G624 course substitution. There is no credit hour change in G795 and no impact on total enrollment.

3. How will this impact students’ time to degree?

No change in time to degree

4. How will this impact specific student populations and/or DEI issues?

No impact

5. How will this impact School of Education resources, including faculty loads?

No impact

6. How will this be effectively sustained over time?

Minor Requirements (12 cr.)

The minor must have integrity in its own right and must complement the major. The minor field must demonstrate wholeness within itself and contribute to the student's overall doctoral program. Minors are normally formulated within a single program area. However, an interdisciplinary minor is also possible. If courses in the minor are from more than one program area, a written description of the minor's underlying theme must be provided along with a rationale for each course's contribution to that theme. This written description is typically limited to two pages and submitted to the student's Program of Studies Committee. Courses listed in the Major Requirements cannot be used in the minor. However, other major area courses (i.e., G courses) within Counseling Psychology program may be used in the minor, with the approval of the Program Director. A few minors that have been selected by doctoral students in recent years include educational inquiry, human development, sport psychology, public health, organizational behavior, gender studies, and various interdisciplinary studies.

Program-Required Elective Requirement (3 cr.)

Students are required to take any one of the following courses:
