Maintaining Active Student Status

Students who have matriculated in a graduate program but fail to enroll and earn at least a C grade in a program coursework for a period of two academic years are automatically terminated from the program. Students whose admission status is terminated due to a lapse in enrollment may reapply for admission, but such admission is not guaranteed, because of a two-year lapse in enrollment may apply for readmission. To reapply, they must meet current criteria for admission, pay a new application fee and, if readmitted, are subject to current program requirements.
