

CASS minor GPA requirement proposal

Currently students completing a B.S. Ed. with a major of Counseling and Student Services are required to complete an academic minor of 15-18 credit hours offered by any academic unit on campus. Grades lower than a C minus (C-) will not count towards the minor and students must achieve a 2.5 or better overall GPA in the academic minor.

Proposal: Align the requirement for the academic minor GPA with other academic minor requirements offered on the IUB campus. Students would be required to complete the minor with a 2.0 overall GPA or better while retaining the requirement that each class must have a C minus (C-) or higher grade to count towards the completion of the minor.

The adjustment to the GPA requirement of the academic minor portion of the B.S. in Education: Counseling and Student Services would take effect immediately.

Jesse Steinfeldt, Program Coordinator for the major, and Joel Wong, Counseling and Educational Psychology Chair, approved (on February 24, 2020) the proposed change to the minimum GPA required for the completion of an academic minor.
