The Ph.D. program prepares students for careers in higher education emphasizing research and related scholarly activities. Toward this end, coursework emphasizes research and theory including in-depth exploration of an academic discipline in addition to higher education which is typically selected outside the School of Education.

Ninety graduate semester credit hours are required distributed across the following areas.

A student's program of study is planned with the help of an Advisory Committee composed of two members from the higher education major including the faculty student's advisor, and one representing the minor field. A meeting with the Advisory Committee is required to approve the program of study.
I. **Major: (total credits = 36 hours)**

A. **Required courses: 18 credit hours**

- C620 Pro Seminar in Higher Education 3
- C654 Higher Education in the United States 3
- C664 Higher Education Organization 3
- C750 Topical Seminar: variable title 6
  
  (*Research seminar that includes original inquiry experiences: 2 required; 3 recommended for Ph.D.*)
- C788 Seminar in Research in Higher Education (Linkage) 3*

1. Two 3 hr. early inquiry courses are required in either of the two following experiences: a C750 Research Seminar which has a directed research focus that is a significant part of the class requirement; a C790 working directly under the supervision of a faculty member on a significant research project.

2. C788* Seminar in Research in Higher Education explores methodology in current higher education research which includes an analysis of current research practices and requires the student to conduct a literature review that should inform his or her dissertation.

* **Note:** C788 should be taken near the end of program of study.

B. **Other courses: including, but not limited to 18 hrs.**

- C585 Principles of Fund Raising Management 3
- C595 Legal Aspects of Philanthropy 3
- C655 Higher Education and Public Policy 3
- C665 Higher Education Administration 3
- C670 Problems in Financing Higher Education 3
- C695 Academic Problems in Higher Education 3
- C705 Legal Aspects of Higher Education 3
- C750 Topical Seminar: variable title 3
- U544 Introduction to Student Affairs Work in Higher Education 3
- U546 Diverse Students on the College Campus 3
- U548 Student Development Theory and Research 3
- U549 Environmental Theory and Assessment in Higher Education 3

The following arranged courses can also count toward the major:

- C675 Supervised College Teaching 2-3
- C747 Practicum in Administration 1-6
- C760 Internship in Administration 1-6
- C790 Research in Higher Education 1-12
Other courses may be included in the major with the approval of the Advisory Committee.

II. **Minor: total credits = 12 hours minimum**

Course work should focus on the research and scholarship of an academic discipline that provides a useful perspective on the study of higher education. This perspective often influences the topic or methodology used in the dissertation. The minor may be any Graduate School approved minor, or four courses that form a single interdisciplinary minor may approved by a Graduate School. For this alternative a faculty member from outside the higher education program must be a member of the program committee (e.g., Sociology, Law, Educational Inquiry, Educational Policy, Organizational Studies). For the interdisciplinary minor a memo must be provided by the student and approved by faculty member representing the interdisciplinary minor that provides a rationale for minor. Student Affairs cannot be used as a minor.

III. **Inquiry Skills and Techniques: total credits = 12 hours**

A. **Required course:** 3 credit hours

Y521 (or Y520) Strategies for Educational Inquiry 3

(Y502 or its equivalent is required as a pre-requisite for the Ph.D.)

B. **Other courses:** 9 credit hours

Three additional inquiry courses approved by the Advisory Committee are required (see Y-prefix courses in catalog for examples). Typically, these courses are of the following:

H510  Foundations of Educational Inquiry 3
H601  Historical Inquiry in Education 3
Y527  Educational Measurements 3
Y535  Evaluation Models and Techniques 3
Y603  Statistical Design of Educational Research 3
Y604  Multivariate Analysis in Educational Research 3
Y611  Qualitative Inquiry in Education 3
Y617  Psychometric Theory 3
Y635  Methodology of Educational Evaluation 3

Three of the four inquiry courses should be taken prior to the qualifying exam.

IV. **Electives or Second minor: total credits = 15 hours**

The remaining 15 hours can be used to create a second minor, for further study into any appropriate field or to obtain other professionally relevant knowledge. A minimum of 12 hours must be taken for a second minor. Students are encouraged to enroll in six hours of...
courses to provide a breadth of understanding of the basic concepts that inform higher education as a discipline. Typically the six hours come two of the following areas: History and Philosophy, Psychology, Policy Studies, Sociology and Anthropology, or Organizational Theory. With Advisory Committee approval student also may use courses from other academic areas appropriate for student's special professional objectives.

V. **Dissertation: total credits = 15 hours minimum**

* C795 Dissertation Proposal Preparation 3  
C799 Doctoral Thesis (12 hrs minimum) 12

*Note*: C795 should be taken near the end of program of study.

**COMBINED TOTAL CREDITS** 90

**OTHER PROGRAM REQUIREMENTS**

**FIRST YEAR REVIEW FOR HESA DOCTORAL STUDENTS**

Beginning doctoral students (both Ph.D. and Ed.D.) at the end of the first year (and/or 18 hours of course work) need to file a First Year Faculty Review with their advisor. The advisor will assess work the student has completed and what the student is planning for the future. The focus of the review is on assessing the student’s ability to: 1) clearly articulate their thoughts and ideas in an organized manner (writing and oral), 2) analyze and synthesize research in order to formulate an opinion or argument, 3) illustrate a focused plan for completing doctoral work. (see Outline of the Review Process for instructions)

**PROGRAM PLAN**

Students are strongly encouraged to finalize their program of studies no later than the end of their second year if they are full-time students or by the time they have completed 36 hours of coursework (not counting courses that were transferred from other institutions).

**EARLY INQUIRY EXPERIENCE**

According to the School of Education Graduate Bulletin “(in addition to the inquiry core course work). One of these inquiry courses is to be an early inquiry experience wherein a student carries out an actual research project, including the collection and analysis of data to answer a research question, and the writing of a research manuscript.” (*School of Education Graduate Program Bulletin, 2005-2007, p.52*).

**HESA requirements**

1. There must be a product produced as a result of the early inquiry experience.
2. The product should be suitable for presentation and/or publication. This is can include professional conferences or institutional presentations/publications.

3. In most cases, it is not be possible to fulfill the early inquiry experience with the required HESA courses. Instead the student should look for Special Topics (C750) courses that the instructor designates as fulfilling the early inquiry experience or an Independent Study that fulfills the requirements.

4. The instructor will clearly state in the syllabus of a Special Topics course what requirements must be completed to fulfill the early inquiry experience.

INQUIRY LINKAGE COURSES

According to the School of Education Graduate Bulletin all students must complete "The second of the major area [Higher Education] inquiry courses is an inquiry linkage course. This is a course in which research relevant to the major field of specialization is studied." (School of Education Graduate Program Bulletin, 2005-2007, p. 52-53).

HESA designated inquiry linkages courses are listed below. Note that these are counted for credit twice. They are counted only once as part of the major.

- The courses (C750 and/or C790) used for the two required early inquiry experiences
- C788 Seminar in Research for Higher Education

QUALIFYING EXAM

"Prior to beginning a doctoral dissertation and at or near the time of completion of all course work, all doctoral students in the School of Education must pass a qualifying examination in their major area of study. In effect, this examination process is intended to determine if a student is qualified to begin work on a doctoral dissertation." (School of Education Graduate Program Bulletin, 2005-2007, p.53).

The qualifying exam with written and oral components is taken at or near completion of course work in the major. The student must have his/her Advisory Committee Chair’s approval to take the qualifying examination. The written section is comprehensive; covering issues faced by the profession and the knowledge base of the field. Questions are broad and will require students to integrate theories and substantive issues from the courses they have taken. Qualifying exams for the minor are determined by the minor advisor in consultation with the students. Following review by the faculty, the student must defend the written examination in a meeting with the Advisory Committee.

HESA Requirements

- Student will apply for qualifying exams with the permission of their program advisory committee.
- Students must be in good standing to take qualifying exams (above 3.3 gpa (Bulletin, p. 16) and less than 6 credit hours of incompletes (Bulletin, p. 53)).
- The first day question(s) will focus on broad concepts in higher education and incorporate the require coursework in higher education.
• The second day question(s) will focus on areas of specialization the student has developed during the doctoral program and one or more topics of interest identified for dissertation research.

RESEARCH SKILLS

Research skills required for the Ph.D. are satisfied by course completion prescribed in the Inquiry area.

RESIDENCY REQUIREMENT

Ph.D. students are required to enroll in 9 credit hours in two consecutive semesters to meet the current Graduate School requirement. Students are strongly encouraged to participate in research projects, colloquia, and study groups, attend lectures, seminars, and participate in scholarship or professional practice during their doctoral studies. Additional detail will be provided by one's advisor.

DOCTORAL DISSERTATION

Students are required to design, conduct, and orally defend an original piece of research.
Ed.D. PROGRAM IN HIGHER EDUCATION

School of Education
Indiana University

The Ed.D. program provides for in-depth study of administrative functions informed by theory, research, and practical experience. The program allows students to identify their professional interests and pursue courses and related activities that meet their interests and needs. Students who complete the program become practitioner-scholars in their particular area of expertise.

The Ed.D. requires 60 graduate semester credit hours beyond the master's degree distributed across the following areas. Because 30 hours from your master's degree is counted toward the 90 credit hour requirements for a doctorate, no additional credits from your master's degree are counted toward the Ed.D.

A student's program of study is planned with the help of an Advisory Committee composed of two members from the higher education major including the student's faculty advisor, and one faculty representing the minor field. A meeting with the Advisory Committee is required to approve the program of studies.
I. Higher Education Major: (total credits = 27 hours)

A. Required Courses: 15 credit hours

- C620 Pro Seminar in Higher Education  3
- C654 Higher Education in the United States  3
- C664 Higher Education Organization  3
- C665 Higher Education Administration  3
- C788 Seminar in Research in Higher Education  3*  
  (Inquiry Linkage course)

* Note: C788 should be taken near the end of program of study.

B. Other Courses: 12 credit hours (choose from among these courses)

- U544 Intro. to Student Affairs Work in H.E.  3
- U546 Diverse Students on the College Campus  3
- U548 Student Development Theory and Research  3
- U549 Environmental Theory and Assessment in H.E.  3
- C585 Principles of Fund Raising Management  3
- C595 Legal Aspects of Philanthropy  3
- C655 Higher Education and Public Policy  3
- C670 Problems in Financing Higher Education  3
- C695 Academic Problems in Higher Education  3
- C705 Legal Aspects of Higher Education  3
- C750 Topical Seminar: variable titles 1-6

The following arranged courses may also count toward the major:

- C675 Supervised College Teaching  1-6
- C747 Practicum in Administration  1-6
- C760 Internship in Administration  1-6
- C790 Research in Higher Education  1-12

Other courses can count toward the major with the approval of the student's Advisory Committee.

II. Minor: (total credits = 9 hours minimum)

The minor should provide an alternative perspective on educational problems and processes. After consultation with their Advisory Committee, students should select courses that ground them in the basic concepts that provide a useful perspective from which to reflect on administrative functions and processes.
III. Inquiry Core: (total credits = 9 hours)

A. Required Courses: 9 credit hours

*Y521 or Y520 Strategies for Educational Inquiry 3
Y535 Evaluation Models and Techniques 3
Y510 Action Inquiry I 3

(Y502 or its equivalent is required as a pre-requisite for the Ed.D.)

*(although either Y520 or Y521 can meet this requirement, Y521 is recommended because it is offered to doctoral students only)

IV. Electives: (total credits = 6 hours)

With Advisory Committee approval a student may use courses from the School of Education or other academic areas consistent with the student's particular professional objectives.

V. Dissertation: (total credits - 9 hours minimum)

C795 Dissertation Proposal Preparation 3*
C799 Doctoral Thesis in Higher Education 6

* Note: C795 should be taken near the end of program of study.

COMBINED TOTAL CREDITS 60

OTHER PROGRAM REQUIREMENTS

FIRST YEAR REVIEW FOR HESA DOCTORAL STUDENTS

Beginning doctoral students (both Ph.D. and Ed.D.) at the end of the first year (and/or 18 hours of course work) need to file a First Year Faculty Review with their advisor. The advisor will assess work the student has completed and what the student is planning for the future. The focus of the review is on assessing the student’s ability to: 1) clearly articulate their thoughts and ideas in an organized manner (writing and oral), 2) analyze and synthesize research in order to formulate an opinion or argument, 3) illustrate a focused plan for completing doctoral work. (see Outline of the Review Process for instructions)

PROGRAM PLAN

Students are strongly encouraged to finalize their program of studies no later than the end of their second year if they are full-time students or by the time they have completed 36 hours of coursework (not counting courses that were transferred from other institutions).

INQUIRY LINKAGE COURSES

“The second of the major area of inquiry courses is an inquiry linkage course. This is a course
in which research relevant to the major field of specialization is studied.” (School of Education Graduate Program Bulletin, 2005-2007, p. 52-53).

HESA designated inquiry linkages courses are listed below. Note that these are counted for credit twice. They are counted only once as part of the major.
- The course (C750 or C790) used for the two required early inquiry experiences
- C788 Seminar in Research for Higher Education

**QUALIFYING EXAM**

“Prior to beginning a doctoral dissertation and at or near the time of completion of all course work, all doctoral students in the School of Education must pass a qualifying examination in their major area of study. In effect, this examination process is intended to determine if a student is qualified to begin work on a doctoral dissertation.” (School of Education Graduate Program Bulletin, 2005-2007, p.53).

The qualifying exam with written and oral components is taken upon completion of course work in the major. The student must have his/her Advisory Committee Chair’s approval to take the qualifying examination. The written section is comprehensive; covering issues faced by the profession and the knowledge base of the field. Questions are broad and will require students to integrate theories and substantive issues from the courses they have taken. Qualifying exams for the minor are determined by the minor advisor in consultation with the students. Following review by the faculty, the student must defend the written examination in a meeting with the Advisory Committee.

**HESA Requirements**
- Student will apply for qualifying exams with the permission of their program advisory committee.
- Students must be in good standing to take qualifying exams (above 3.3 gpa (Bulletin, p. 16) and less than 6 credit hours of incompletes (Bulletin, p. 53)).
- The first day question(s) will focus on broad concepts in higher education and incorporate the require coursework in higher education.
- The second day question(s) will focus on areas of specialization the student has developed during the doctoral program and one or more topics of interest identified for dissertation research.

**RESIDENCY REQUIREMENTS**

The residency requirement can be satisfied by taking either two consecutive semesters of nine credits or three consecutive six-hour terms at the Bloomington-Indianapolis core campus.

**DISSERTATION**

The dissertation is a study designed, completed, and orally defended by the student. This may be original research in a traditional inquiry format, or a student may conduct a campus audit, case study, needs assessment, program review, evaluation, program or another suitable study of professional practice. The Research Committee for the dissertation must be comprised of two faculty from the Higher Education Program and one faculty member from the student's minor or an area of specialization relevant to the student's dissertation research.
