

Approval of G203 to Meet Oral Expression and S&H Common Curriculum Requirements in All Programs

Rationale: G203 – Communication in the Classroom – has been approved by the IU Bloomington General Education Committee to meet a common curriculum requirement under the general education curriculum that will be enacted for incoming freshmen in Fall 2011. In our current elementary and secondary programs, G203 only meets the “oral expression” requirement. By allowing students to “double-count” this course (thus meeting two requirements), it will allow for more flexibility in elective courses that students may wish to take in their programs.

If approved, this change will be implemented for the Fall 2010 incoming freshman class.

This proposal has been approved by the Committee for Teacher Education.
