

Proposed Changes in the Ed.D. in Educational Leadership

-Move A600 (Problems in Ed Lead: District Level Leadership) to a Required Course and move A560 (Politics of Ed) to an Elective.

Rationale: We wanted to move the 500-level courses to the electives and have 600-level courses as requirements. Some Ed.D. students already have taken A560 in master's program. We thought it best to list A560 as elective to allow those who have had the course choose something else instead.

-Approve the following language: "A675 (Special Educational Leadership) and A720 (Special Topics) may be substituted for any of the above required major courses with Ed.D. advisor approval."

Rationale: The EdD is a 60-credit hour program and there are several courses we would like to include but cannot, given our credit limitations. The current courses include content that is extremely valuable to school administrators but there are other courses (e.g., A675) that would be equally beneficial to some students. For example, a student who wants to become a special education director might benefit more from A675 than, for example, A640 (facilities). The same arguments can be made for A720. Finally, we are trying to recruit more law students to pursue the Ed.D. Law students may take A720 in the Education Policy Minor or Education Law Certificate Programs. We are also trying to recruit more Special Education Director's License students to pursue the Ed.D. A675 is a requirement for this license.
