

Proposal: Adoption of core campus and IUPUI-specific policies for the School of Education at IUPUI

*Rationale:* The School of Education at IUPUI (SoE at IUPUI) currently operates within a core school policy framework that includes school-level policies applying generally to the core school and policies applying specifically to the SoE at IUPUI. With dissolution of the core school, the SoE at IUPUI will need to revise that policy framework to better suit operations as an independent unit. Separation will result in substantial changes to organization and operation of the SoE at IUPUI, many of which are difficult to anticipate. Review and revision of policies will also be time intensive and contingent on a number of simultaneous changes including but not limited to changes to the school organization and revision of the school constitution.

*Resolution:* To maintain a level of consistency following dissolution of the core campus and provide time for the faculty and administration of the SoE at IUPUI to do due diligence in reviewing and revising relevant school-level policies, the SoE at IUPUI faculty adopt the current school-level policies applying explicitly to the SoE at IUPUI and those school-level policies applying explicitly or implicitly to the core campus.
