72.13 Policy Council role in the appointment of Division Directors, Associate Deans and Assistant Deans.		this policy seems so far out of step with current practice to be problematic. Instead of keeping it, I'd encourage Policy Council not to keep this one and simply make note that a new policy needs to be written.*
73.43 Statement on Non-Standard Ranks		our understanding was that this policy is out of date and likely superseded by University and Campus policies. It is unclear, given the superseding policies, that the School of Education needs such a policy.

- The Agenda Committee suggests that this policy be kept until the Faculty Affairs Committee puts forth another policy.
