

2022-2023 Graduate Studies and Recruitment, Admission & Financial Aid Committee Annual Report

Committee	Charges	Progress	Barriers, if any	Estimated Completion Date	Additional Notes
Graduate Studies and Recruitment, Admissions & Financial Aid (GSC)	Charge 1: Review impact of early priority funding deadline	There was no clear pattern in the data for this year, and the early admissions deadline did not always translate into earlier decisions within programs. Overall, the new deadline did not seem to substantially impact the number of applications, and the GSO will continue to push on getting decisions out as soon as possible.	Department Decisions not earlier even if apps are	23-Jan	Again something worth check year to year on
	Charge 2: Finalize changes of the Annual Review Process for Doctoral Students	Only a few minor changes on the form. GSO worked more on following up with students, and have over 90% completion rate	n/a	Done summer/fall 22	This is something I believe we will look at yearly for any updates or tweaks
	Charge 3: Evaluate campus-level leave of absence policy guidance and incorporate into SOE policy	New SOE paid leave policy approved by PC 3.22.23. New campus non-paid leave rolled out April 23		Done Spring 23	
	Charge 4: Monitor OCAP process and propose changes as needed.	Made a few minor updates to our existing policy to spell out expectations of faculty after program approval.		Approved by PC 1.25.23	This is something I believe we will look at yearly for any updates or tweaks
