2022-2023 Learning and Teaching with Technology Committee Annual Report

Committee	Charges	Progress	Barriers, if any	Estimated Completion Date	Additional Notes
Learning and Teaching with Technology (LTT)	Charge 1: Continue to promote faculty training in emerging teaching and learning technologies	Completed. Three tech training sessions were offered in January, three in February, and 2 more will occur in April. The March session was canceled. Attendance was the highest on the Faculty Town Hall: ChatGPT and AI in Higher Education on January 26 with 247 registered and 122 attending. The other sessions on Zoom, PlayPosit, eTexts, TopHat, etc., were much smaller with 5 to 30 people.	Determining which aspects of AI to focus on next year.	Ongoing	To continue partnership with UITS to offer sessions for faculty on Generative AI. In effect, we need to offer sessions to encourage best practices in Generative AI. The key thing is to show how an innovative technology will benefit faculty (save time, enhance quality, etc.)
	Charge 2: Have UITS do a presentation on active learning spaces on the IU Bloomington and IUPUI campuses, followed by a training programs for faculty members on how to use such spaces. This training will align with the new SLIDE classroom set to open in early 2023	We were waiting for the library renovation to be completed before offering such active learning training in the new experimental classroom (Room 1004 (the SLIDE) and 1006 (the Porch). It will be scheduled for the fall semester. Michele Kelmer from UITS has agreed to have the Mosaic project people offer such training in the fall.		Fall 2023	
	Charge 3: Partner with other campus resources to increase visibility of SOE technological advancements	We partnered with UITS once again this year to offer a series of technology training workshops and made Michele Kelmer from UITS an ex-officio member.		Ongoing.	Michele Kelmer is willing to help out again next year.
	Charge 4: Coordinate with ETS to establish an equitable process for determining how best to spend the general funds budgeted for certain software licenses on an annual basis.	This charge can be deleted.		Item no longer applicable.	Item no longer applicable.
	Charge 5: Study the alignment of SOE technology with practices in the K-12 setting	This is a long term project. Initial meetings with teacher education were made.	Item is complicated and many stakeholders.	Ongoing	Intend to conduct technology integration survey in the fall of 2023.
