

2022-2023 Undergraduate Scholarship Committee Annual Report

Committee	Charges	Progress	Barriers, if any	Estimated Completion Date	Additional Notes
Undergraduate Scholarship	Charge 1: Make sure new processes are aligned with the new campus policies / guidelines	With a committee of 3 support staff, 2 graduate student reviewers, and 5 faculty reviewers, we met from December through April to streamline the selection process, enact the process, and make award recommendations for every award in EFS identified by the support staff. We lengthened the timeline this year to allow students more time to submit applications and the review committee to review, rank, and award the scholarships so that the work could be done thoughtfully and with fidelity while giving us enough time to review and account for each award. We experienced challenges with the submission system that Duc worked hard to fix, but because we lengthened the timeline we were not in danger of going over deadline.
