

Undergraduate Scholarship Committee

End of Year Report

April 17, 2019

Committee Membership: Enrique Galindo, Erik Jacobson, Kathryn Engebretson, and Keith Barton met to award the scholarships after reviewing approximately 12 files each. Janet Decker was assigned to the committee but was unable to attend due to a family funeral; Kathryn Engebretson took over her files. Gus Weltsek was assigned to the committee but was unable to attend due to a school partnership conflict; Keith Barton was recruited to take on his files.

Actions and Outcomes:

- 68 applications
- 52 complete applications
- A total of 64 awards were made to 36 students
- Total awarded: \$125,350

Recommendations for Future Action: The committee should be 4-5 people with representation from multiple departments and faculty who work in teacher education in order to represent multiple perspectives. Additionally, this is perhaps the best committee to be on since it involves supporting a cadre of very deserving undergraduates and gives the opportunity to award undergraduates who are from underrepresented groups. I would also like it noted that Katie Paulin is indispensable in the process as her knowledge of donor intent and organization are critical to the successful and ethical awards of these scholarships.
