WHAT IS STUDENT ENGAGEMENT?

ENGAGED STUDENTS ARE...

Attentive

Curious

Interested

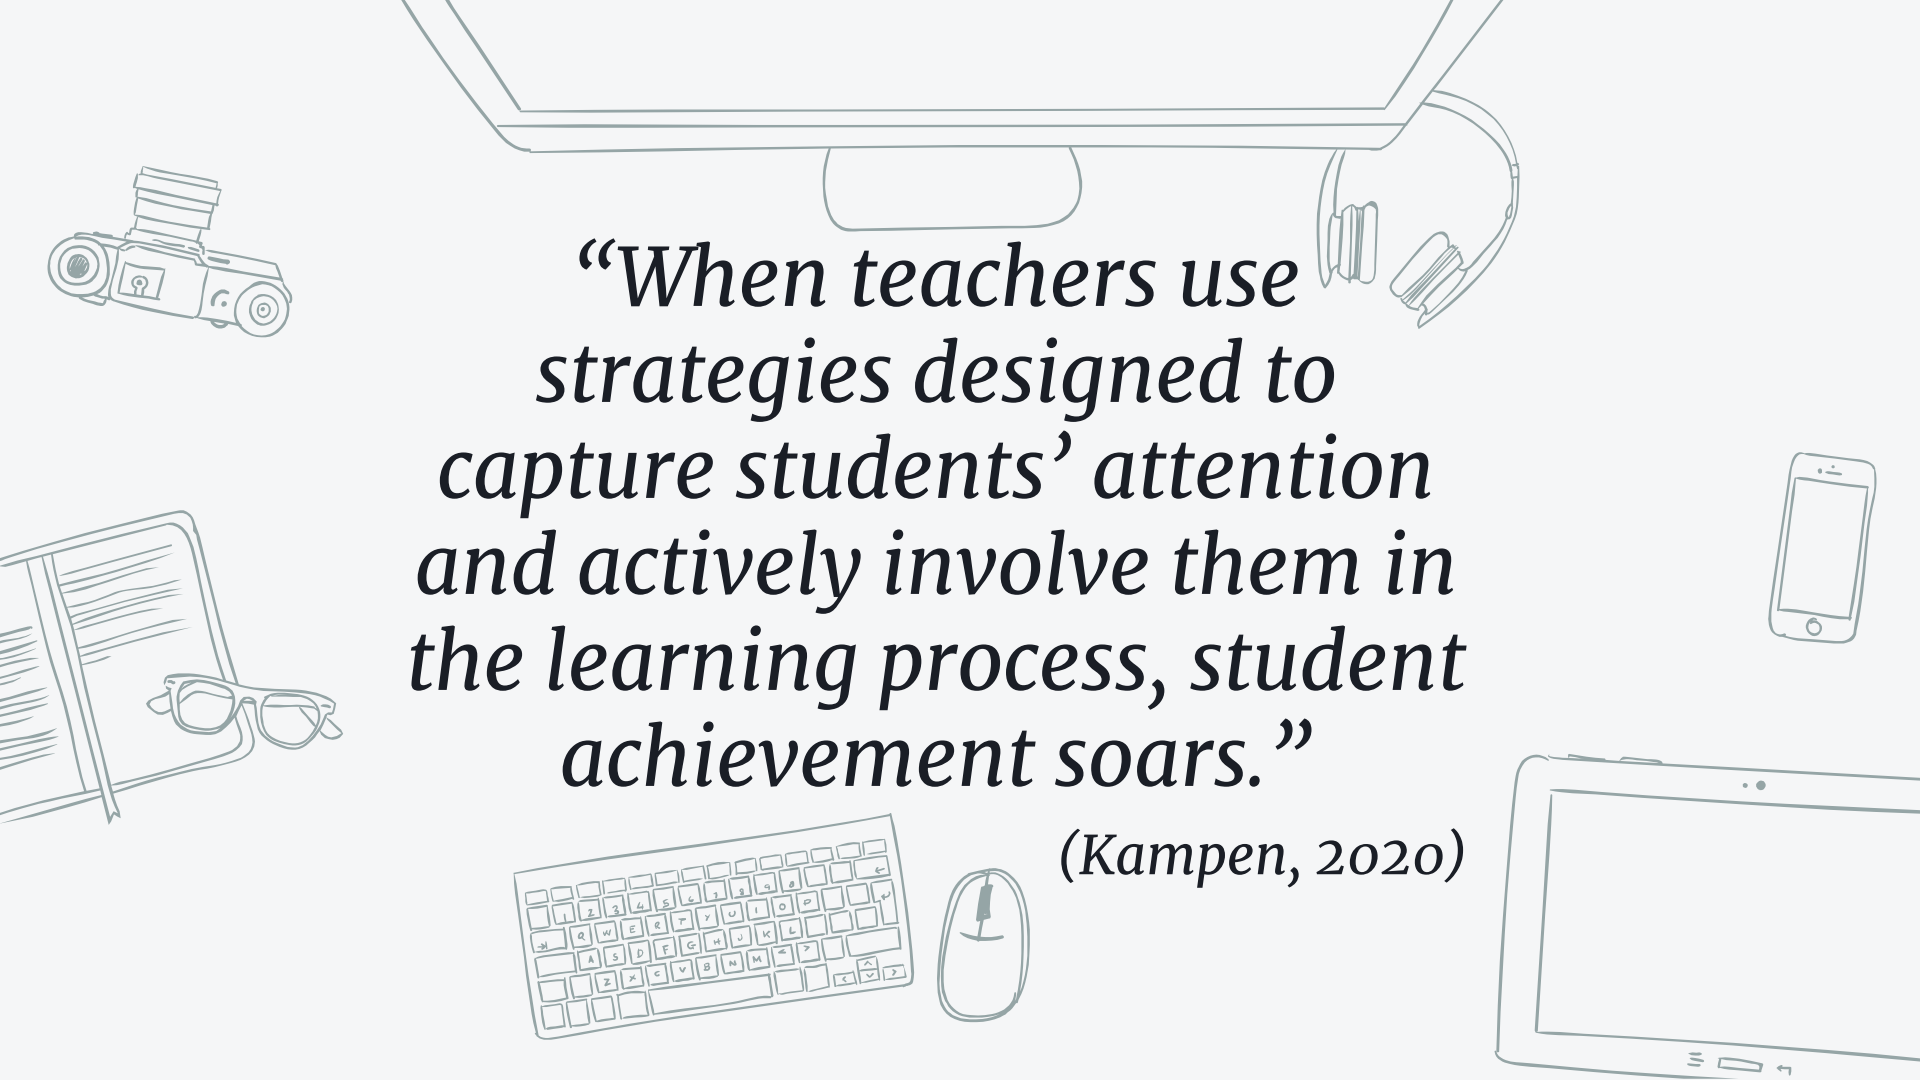

Optimistic

Passionate

Motivated to learn

Actively involved
in the learning
process

“When teachers use strategies designed to capture students’ attention and actively involve them in the learning process, student achievement soars.”

(Kampen, 2020)

WHAT ARE DIFFERENT STRATEGIES FOR ENGAGING STUDENTS?

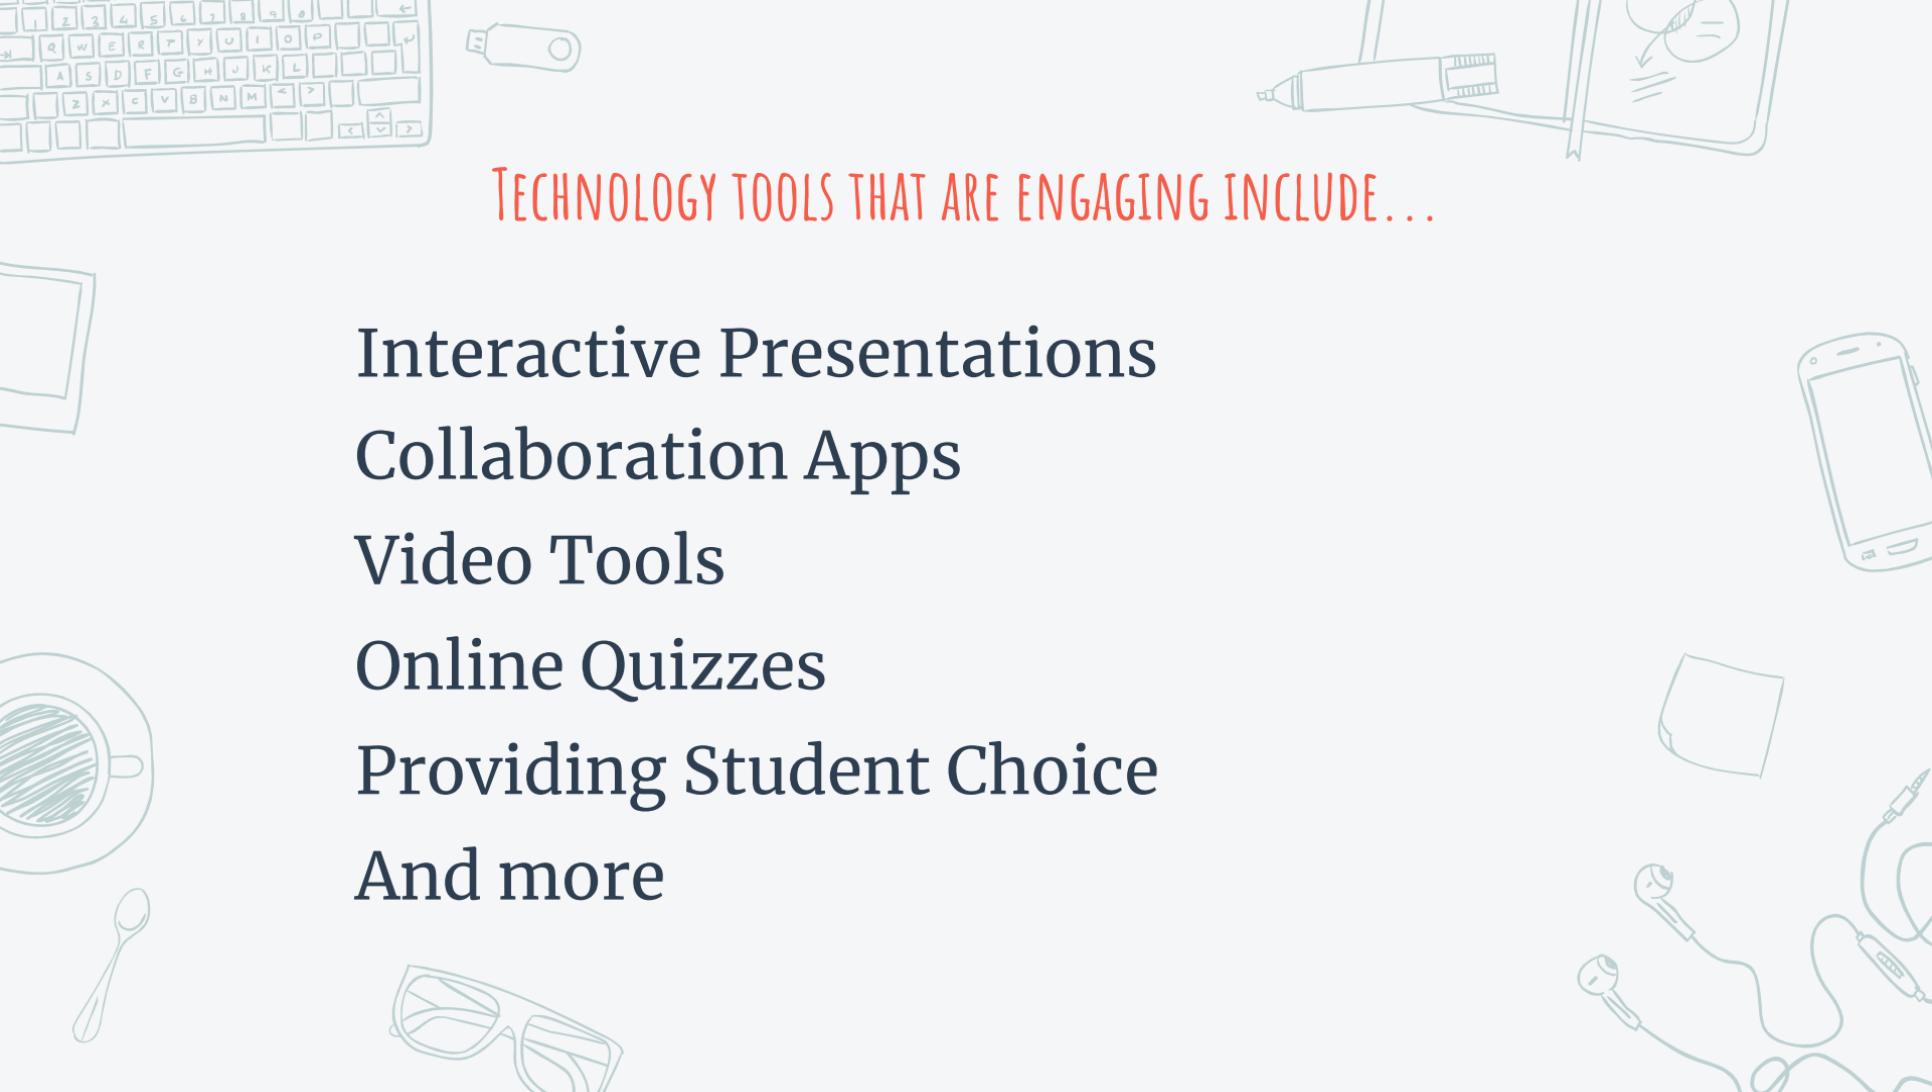

TO ENGAGE STUDENTS USE A TECHNOLOGY TOOL THAT...

Encourages student interest in the topic.

Makes it easier for students to pay attention to the topic.

Provides opportunities for students to work collaboratively in teams to solve a problem.

Is purposeful and directly related to learning.

TECHNOLOGY TOOLS THAT ARE ENGAGING INCLUDE...

Interactive Presentations
Collaboration Apps
Video Tools
Online Quizzes
Providing Student Choice
And more

INTERACTIVE PRESENTATION TOOLS

NEARPOD

Used for creating and delivering interactive presentations that include formative assessment elements.

Encourages students active participation in lectures

NEARPOD

Why we find it engaging?

With a lot of different activities it allows students to engage in a variety of ways

Builds a classroom community through gamification which adds some fun as well as a little competition to the classroom

The collaborative boards help to prime classroom discussions by providing students a space to work together to brainstorm ideas, reflect on a topic, or share experiences

MENTIMETER

Similar to Nearpod it is used to create and deliver interactive presentations and encourages real-time engagement with students

It has fewer interactive activities than Nearpod and does not have any collaborative activities

MENTIMETER

Why we find it engaging?

A lot of the same reasons Nearpod is engaging

The Word Cloud feature is a fun way to visualize students responses

Makes student interaction easier

Makes your lectures more engaging

COLLABORATION APPS

GOOGLE JAMBOARD

8's 4's 2's 1's

What is 9 in binary?

Off 8 Off 4

Sorting Large Numbers

Help the robots sort the information by following these rules:

1. Follow the arrow lines.
2. When you meet another robot at each of the purple rectangles, decide which robot has the larger number.
3. The robot with the larger number should follow the thick orange line and the robot with the smaller number should follow the thin blue line.
4. Repeat until you reach the green circles at the end.

What are the characteristics of a good teacher (A+ teacher)? Decorate this sweatshirt with your one-two word descriptions

Adaptable

Strong communicators

Reachable

Passionate

Personal connection

Group 1: Student last names A - C

GOOGLE JAMBOARD

Why we find it engaging?

Students get to share their ideas

Students can see each others replies displayed

Great as discussion starter

Can be used for team works

Can be used as icebreaker activity

A simple line drawing of a cup of coffee on a saucer, with a spoon placed next to it. The cup is filled with a textured, scribbled pattern representing coffee. The saucer is a simple oval shape. The spoon is a standard teaspoon, oriented vertically.

PADLET

Why we find it engaging?

Students can create and share their own content

Students can have a dialogue with the other students

Students can comment on each others posts

Can engage students with the content even outside of the classroom

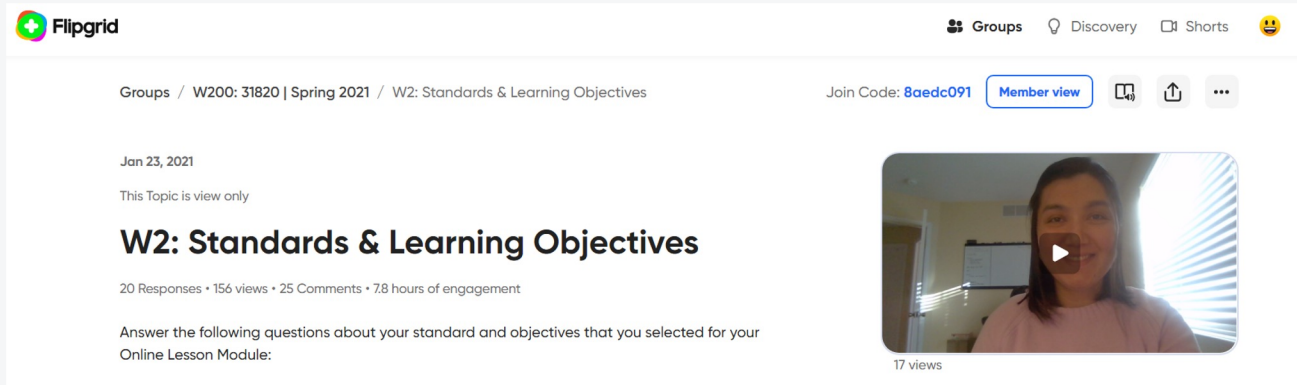

Can be used for individual or group work

VIDEO TOOLS

FLIPGRID

Great to use for outside the classroom discussions. It creates equitable learning experience for those who are not always comfortable talking during the class.

Students use their voice to connect to what they learned.

The screenshot shows the Flipgrid web interface. At the top, there's a navigation bar with the Flipgrid logo, 'Groups', 'Discovery', 'Shorts', and a smiley face icon. Below this, the breadcrumb trail reads 'Groups / W200: 31820 | Spring 2021 / W2: Standards & Learning Objectives'. To the right, it shows the 'Join Code: 8aedc091' and a 'Member view' button. The main content area features a video player with a play button in the center. Above the video, it says 'Jan 23, 2021' and 'This Topic is view only'. The video title is 'W2: Standards & Learning Objectives'. Below the title, it shows '20 Responses • 156 views • 25 Comments • 7.8 hours of engagement'. At the bottom, there's a prompt: 'Answer the following questions about your standard and objectives that you selected for your Online Lesson Module:'.

This Topic is view only

W2: Standards & Learning Objectives

20 Responses • 156 views • 25 Comments • 7.8 hours of engagement

Answer the following questions about your standard and objectives that you selected for your Online Lesson Module:

17 views

FLIPGRID

Why we find it engaging?

Students are facilitators of the discussion

Students share their ideas

Discussions in the form of written or video comments

Promotes positive environment where students watch/listen to each other and give feedback

You can bring your guest speakers there for students to have meaningful video discussions

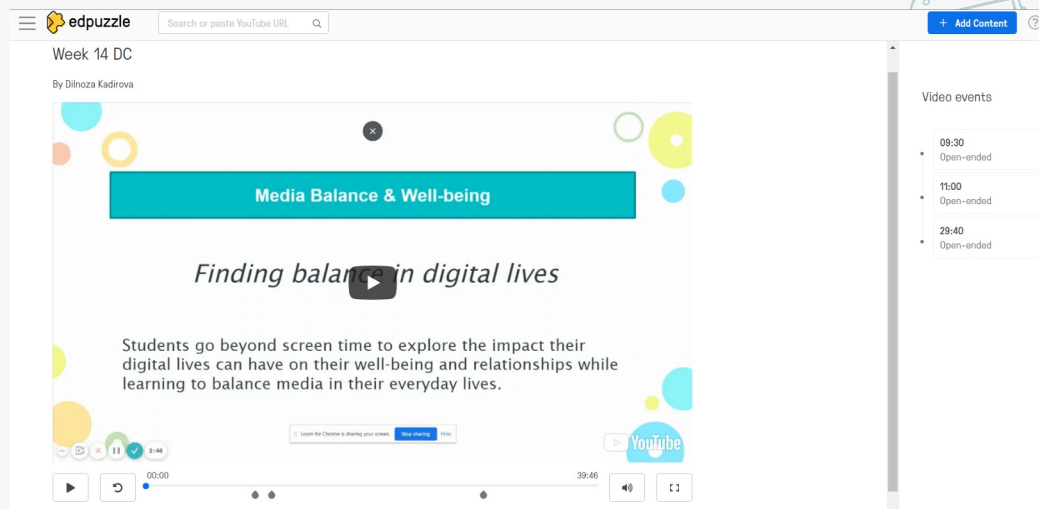

EDPUZZLE

It allows you to create engaging video lessons.

Easy to manage, add questions at any time of the video, and assign to your class.

Use your videos, find ones on Youtube.

Exciting: EdPuzzle in Canvas

EDPUZZLE

Why we find it engaging?

Interactive videos

Students get engaged with the content

Students can ask questions

And many more

SCREENCASTS

Students can screencast their assignments and reflect on their work.

Instructors can screencast responses to student work as well as explanations of class topics

SCREENCASTS

Why we find it engaging?

Helps to improve students' attention and retention of information when compared to text-based learning.

Available 24/7 giving students a choice when to learn.

Easy to review lessons

Students can watch at their own pace

ONLINE QUIZZES

ONLINE QUIZZES

Get students to reflect on what they know

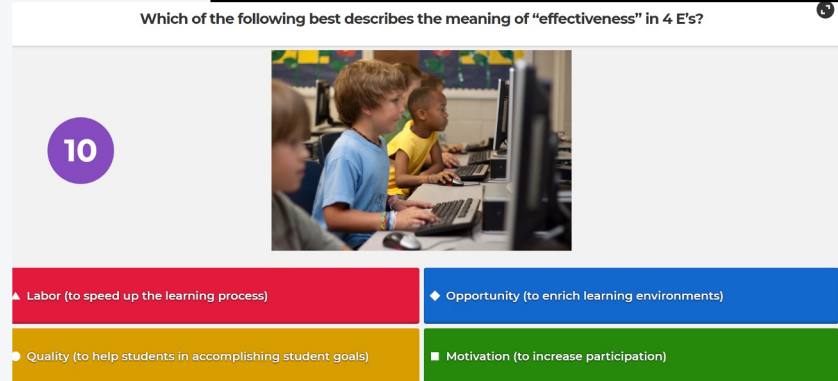

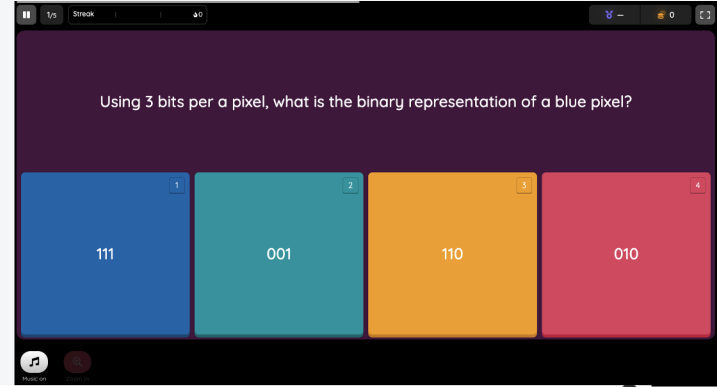

Gives the instructor insights into students understanding

Quizlet

Quizizz

Kahoot

Google Forms

ONLINE QUIZZES

Why we find it engaging?

Encourage active engagement with the course materials

Improves learning and comprehension versus simple memorization

Low stakes and less stressful for students

STUDENT CHOICE

AKA DIFFERENTIATION

PROVIDE STUDENTS WITH A CHOICE OF ASSIGNMENTS

When students have choices for completing an assignment it motivates and engages them because it allows them to:

- Take ownership of their learning

- Create a product that feels authentic to them

- Work on something that they're good at creating, or try something they want to get better at

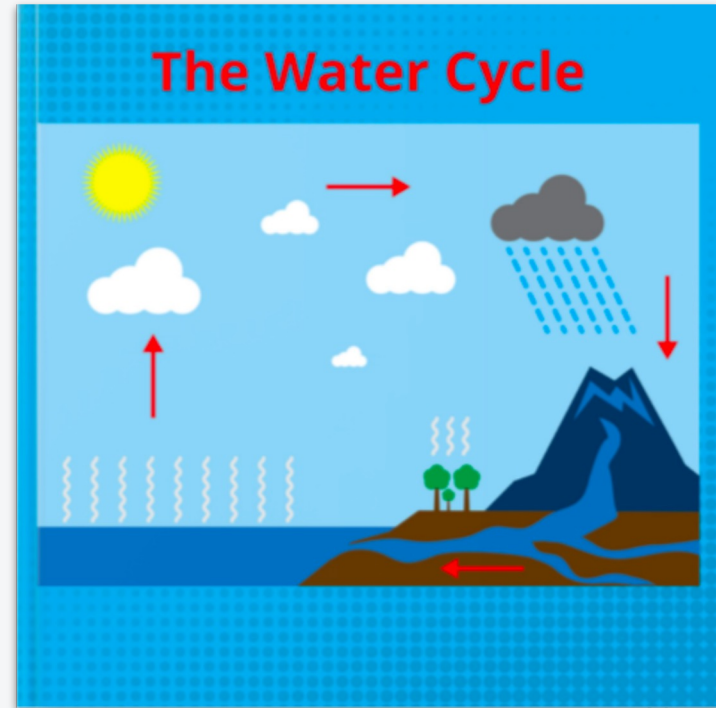

EBOOKS

With eBooks, students can demonstrate their understanding of a topic using a narrative.

[Adobe Spark](#)

[StoryJumper](#)

[BookCreator.com](#)

INFOGRAPHIC

With Infographics students can demonstrate their understanding a topics by:

Providing a quick overview

Explaining a procedure

Showing their data or findings

Comparing and contrasting multiple options

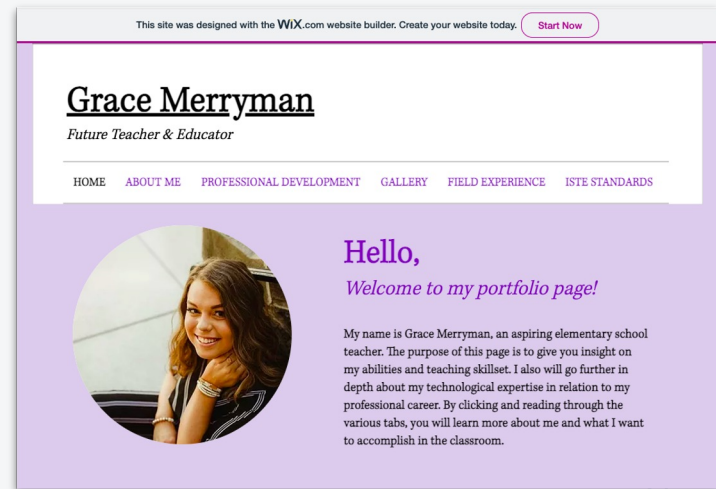

E-PORTFOLIO

Student's showcase
authentic work samples

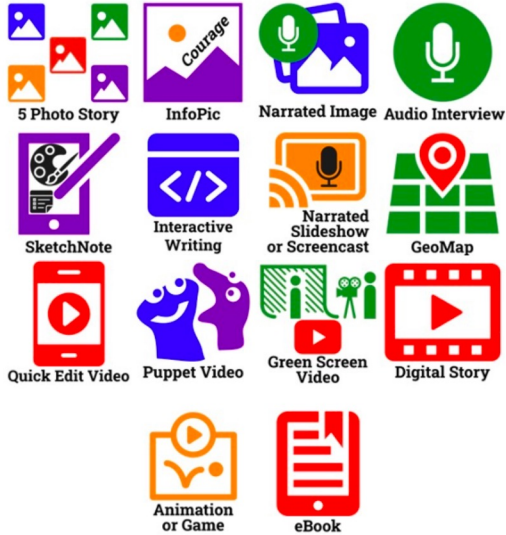

Instructor can quickly
assess growth and skills

The instructor may have
some requirements on what
to include but the student
has control over how to
present it

Common e-portfolio
platforms include Wix and
Weebly
