

INDIANA UNIVERSITY BLOOMINGTON
SCHOOL OF EDUCATION

education.indiana.edu

“**Making a difference in the world starts with education, and great teachers like you are needed now, more than ever.**”

– Dean Anastasia Morrone

The IU School of Education is one of the nation's most respected programs for preparing teachers, counselors, and administrators who work both inside and outside of a classroom. We're a community of globally-focused educators and scholars who believe that the future of education belongs to those who want to **take a leading role in helping others reach their full potential.**

The program combines a broad liberal arts education with theoretical principals, hands-on technology, and practical classroom experience. With our focus on nurturing truly inspirational teachers, we'll promote your professional and personal growth as we help you **develop the skills, knowledge, and connections necessary to succeed.**

This program offers the best of both worlds. You'll enjoy the vast resources of a large research university in a close-knit setting. The School of Education is a friendly community that will encourage your exploration and engagement in academics and student life.

Surround yourself with a diverse group of individuals who share your passion and will help you achieve your goals.

MISSION

To **improve teaching, learning, and human development** in a global, diverse, rapidly changing and increasingly technological society.

VISION

We aim to create an **equitable and inclusive environment** for learning, research and service by **honoring, respecting, and embracing diversity** within the School of Education and the surrounding communities.

VALUES

As a leader in anticipating the educational and research needs of our communities, the state, the nation, and the world, the Indiana University School of Education pursues cutting edge research, scholarship and creative activity. In this work, **the School promotes Excellence, Integrity, Accountability, Usefulness, Respect and the Betterment of Humankind.**

undergraduate students

WHY?

Whatever life experiences have made you consider becoming a teacher, the IU School of Education can help you become a **GREAT ONE**.

Here, you'll get the knowledge and experience to become a reflective, compassionate, and socially conscious teacher with the power to create real, long-term change in the communities where you live and work.

You'll acquire a deep understanding of how different students learn, and explore prevailing strategies about teaching, including how to integrate new technologies into instruction.

Along the way, you'll develop your own theories about instruction, assessment, classroom management, and more.

You'll work beside exceptional educators in their own classrooms as early as your second semester through our **Early Field Experiences** program.

During your **Student Teaching** you'll have the opportunity to practice in real-world learning environments. You can even choose to spend a semester away from Bloomington and immerse yourself in another culture through **Global Gateway for Teachers**.

TOP 5 REASONS

Students **CHOOSE**
IU School of Education:

- 1 Small class size
- 2 Getting in the classroom earlier
- 3 Strong faculty and advisors
- 4 Lots of collaboration
- 5 Global Gateway for Teachers

How to Apply

All Incoming first-year students must be admitted to Indiana University Bloomington through the Office of Admissions.

APPLY BY THE NOVEMBER 1

early action scholarship priority deadline.

Once accepted to IU, you then need to become certified to the School of Education. You do this either as a **Direct Admit Scholar**, or through **University Division (UD) Certification**.

SPRUCE HALL

INSPIRE Living Learning Community (LLC)

Become part of a community of motivated, creative students who want to make a difference.

INSPIRE is a unique housing option for future teachers who want to promote equity and excellence in schools and communities. As a resident you'll learn ways to connect with others and develop partnerships in an environment that encourages inquiry and nurtures learning.

Understand the Needs of Diverse Communities

Good teachers understand how ethnicity, gender, nationality, race, sexual orientation, and socioeconomic status shape our perspectives and the way we learn.

The IU School of Education is committed to building students' understanding of issues of access and equity and preparing them to teach in multicultural environments.

We actively seek out passionate, committed students from a wide range of backgrounds, whose perspective informs our research, outreach programs, and student teaching curriculum.

100%

of Class of '22 graduates were employed or continuing their education within 7 months of graduation

93%

of graduates said that they would recommend the SoE TEP to others

Our students conducted

300

on-campus interviews with employers in 2022-23

Based on 2022 data

Careers

We don't just prepare students to excel in education - we also help them find jobs! Our Career Connections team provides both professional development programming and job search services. Enroll in our Profession Distinction series of courses so you can earn credit while you achieve career readiness or complete our Educator Wellbeing Distinction series to focus on developing skills to support your own wellbeing. We offer career coaching, resume and interview assistance, our workshop series, and three signature job/career fairs to help students connect with employers from around the country.

Scholarships

Incoming freshman that are Direct Admit Scholars will be considered for scholarship upon admission to IU. Current upper-class students can be considered for School of Education scholarships based on the completion of an annual application.

Student Teaching

Our student-teaching philosophy is simple: **the more time you spend in real classrooms, the better.**

Through our early field experiences program, students have the opportunity to work beside experienced educators in their classrooms as early as their second semester. Because of this wealth of experience, our graduates are extremely well-prepared as they begin their careers, as evidenced by the 95% of candidates who have met state licensure requirements over the last four years.

Students spend 12-18 weeks in full-time supervised classroom instruction. In-state students can return to their home districts. Out-of-state students are assigned to an In-state location usually in the local area.

OUT OF STATE?

Most states allow holders of an Indiana state teaching license to begin teaching immediately while they work towards earning their certificate or license for that state.

GLOBAL GATEWAY FOR TEACHERS

The rigid structure of most teacher education programs makes it difficult to take part in traditional study-abroad or off-campus internships. Global Gateway for Teachers provides students invaluable intercultural immersion experiences while also fulfilling their student teaching requirements.

Gain experience as a teacher while immersing in a different culture. This unique program provides classroom and community experiences for student teachers in culturally diverse settings in three distinct programs:

OVERSEAS

Start with a minimum of 10 weeks student teaching in Indiana, and then spend 8 or more weeks teaching in Australia, Costa Rica, Ecuador, England, Germany, Ghana, Greece, India, Ireland, Italy, Japan, Mexico, New Zealand, Northern Ireland, Norway, Scotland, Spain, Tanzania, or Wales. Coming soon, **FRANCE!**

NEW FOR CASS MAJORS: Three-week school-based immersion experiences in New Zealand!

NAVAJO NATION

Spend 16 weeks student teaching in the Navajo Nation in Arizona, New Mexico, or Utah.

URBAN

Spend a full semester of student teaching and living in Chicago city schools and neighborhoods.

In all of our Global Gateway programs, you'll engage in community-based study and service, and build connections with the families served by your school.

WHAT?

Degree Options:

Make a difference from your first day on the job. A four-year college plan of 120 credits requires completion of 15 credits each semester. Professional education courses are taken in three to five semester blocks, including student teaching.
