

SEPTEMBER

REMINDERS

First Year Students

Welcome! We hope you are off to a great start. We encourage you to go into the admissions systems and apply for the master's degree (see attached for instructions)

Also, we encourage you to meet with your advisor if you have not done so already. Your advisor should have reached out to you about this, but if not, please do not hesitate to reach out to them.

Third Year Students

Ed.S.

Your main job is to crush it on internship, as we know you are already doing. Also, be on the lookout for graduation information sent by the graduation office.

Ph.D.

You should be talking soon with your advisors about getting started on your EI projects if you have not done so already. Also, many of you will finish your master's requirements either this semester or next semester. We believe that all of you have already been accepted into the master's degree and please complete your Program of Study (this one is easy-peasy compared to the others as they are all classes you either have already taken, are taking now, or will take next semester) ASAP once posted as this needs to be done before you receive your degree.

Second Year Students

If you have not already gone into the admissions system to apply for your master's degree, please do so ASAP (please see attached directions on how to do so). If you have not filled out your program of study, please do so ASAP (for those second-year students in their first semesters as Ph.D. students, please keep checking to see if your Ph.D. The program of Study has been posted. You will need to complete a new Program of Study for the Ph.D. program

Ed.S.

If you are planning on applying for internship out-of-state, please be sure to make that known if you haven't done so already so we can check into the internship application timeline in your state. Also, we will be working with you to help you apply for internship later on this semester.

Ph.D. Students Applying to Internship

If you're applying for internship, if you would like for faculty to review drafts of your APPIC essays, please let us know. Also, please do not hesitate to reach out to your advisors and any other faculty you wish as you start to narrow down your list of sites that you are applying to --we know this is a big decision.

Ph.D. Interns

We miss you! We know you are all working on your dissertations with your dissertation advisors and otherwise crushing it on internship. Also, we appreciate your efforts in supporting the group behind you as we are hearing about you giving great advice and support to those applying for internships now.

Recognition

Jordan

Congratulations to Jordan for being elected an officer in the national version of SASP!

Malena

Congratulations to Malena for being elected co-chair of NASP's Graduate Student Committee! Next year she will be the chair.

Olivia, Jack, Dr. Ormiston

Congratulations to Olivia, Jack and Dr. Ormiston for having their paper "Incorporating Student Self-Report for Progress Monitoring: Tapping Into Their Expertise" accepted by NASP's Communique. The article is slated to be published in the November issue of Communique

Jazlyn

Congrats to Jazlyn on presenting in Colombia over the summer! Jazlyn is part of an international committee within the American Psychological Association and presented with a group from across the globe

Dr. Blair Baker

Congratulations to recent Ph.D. graduate (2021) Dr. Blair Baker for having her early inquiry paper published in the Journal of Educational and Psychological Consultation. The title of her article is "It's the Teacher's Responsibility": Examining Pre-service and In-service Teachers' Responses to Racial Discrimination. Dr. Baker is currently an Assistant Professor of School Psychology at Cleveland State University.
